Ride- N -Tie Bridle

Retails for \$108.00

The unique feature of this bridle is when the brow band is unsnapped from the rope halter, the bit attachment comes with it. So simple and quick, too! The snaps are stainless, so they will never rust!

The Rope Halter is made with 1/4" soft polyester Marine Yacht Rope. The Hand Braided Noseband is wrapped with Paracord. What's so great about this Braided Noseband is one tug on the lead rope from you and you get your horse's attention! Great for training the youngster and "oldsters", too.

Shown here in Blue. All Rope Halters are Black with the colored Paracord Noseband. Available in a rainbow of colors that match Beta, BioThane and Overlays!

12' Lead Rope

Retails for \$40.00

Made in the USA 12' Lead Rope is made from premium 100% Polyester 1/2" Yacht Braid Rope and is used by many professional horse trainers. A heavy, densely braided rope that has more "feel" than lighter ropes. This specially designed rope will assist you in transmitting command signals to your horse and is great for the "pre-ride" lunge warm up!

The Lead Rope end is marine spliced with removable sturdy Stainless Steel snap and the opposite end has a leather popper.

Shown here in Red, its available in a rainbow of colors that match the Hand Tied Braided Rope Halter.

**Ultra Simple
Western Breast Collar
Patterned Overlay**

Retails for \$110.00

Shown here in 3/4" wide Wine Beta® with Desert Sun Overlay. All hardware is stainless steel.

Hopi Grip Reins

Retails for \$85.00

These 7 1/2' and 8 foot reins are perfect for the rider who doesn't like excess reins to deal with while riding. The problem with shorter reins, though, is that when your horse bends down to drink from a bucket or stream, your arms suddenly become too short. This solves that problem by adding a handy dandy 24inch "Arm Extenders" to the center of the reins. Yep, your arms instantly become 2 feet longer.

The Grippy Rein is 3/4" wide is sewn onto 3/4" wide Beta and BioThane. The popper is 1/2" wide.

Shown above in Blue BioThane with Fire Dance Overlay and Stainless Steel Scissor Snaps and Conway Buckle. Also available with Halter Snaps, too. The Grippy part is available in Black or Brown in Smooth Grip and Original Grippy.
